

## **Lattice Obtains Certification to Provide Inmate Phone Service in Florida**

### **Certification will aid in expanding the Company's footprint in Florida**

PENNSAUKEN, NJ, January 26, 2015 (Marketwire) -- Lattice Incorporated (OTCQB: LTTTC) ("Lattice" or the "Company"), a cloud-solutions provider of inmate management network systems for corrections facilities, recently obtained certification to provide its industry-leading inmate phone service in Florida. This certification enables the Company to offer its robust suite of phone, inmate account management, and voicemail solutions.

"We are excited to offer our industry-leading inmate phone service in Florida," stated Paul Burgess, CEO of Lattice. "Our platform offers innovation, security, and reliability. Florida represents a strong market opportunity not only for this service, but also for our growing portfolio of integrated inmate management and communications solutions that promote greater efficiencies for corrections facilities, ease the burden on their staff, and provide them with revenue-generating opportunities."

Lattice's phone service is a solution within its Integrated Corrections Operating Network ("ICON") platform, an integrated communications system for correctional facilities, offering secure telephone calls, voicemail, video visitation, e-mail, text messaging, and social media. ICON also includes a facility management and accounting package that enables efficient management of all prison processes, including communications, commissary purchases, point-of-sale kiosks, biometrics, booking, incident reporting, and more. ICON's automated payment processing, billing, and accounting features reduce administrative overhead for corrections facilities. ICON is designed to improve efficiency and accountability for correctional facilities ranging from large multi-facility operators to small individual facilities.

Please visit Lattice's exhibitor booth at the upcoming Florida Sheriffs Association Winter Conference, taking place February 1-4, 2015 at the Ritz-Carlton Amelia Island, Florida.

### **About Lattice Incorporated**

Lattice Incorporated provides advanced information and communications technology solutions to corrections facilities globally. The Company's innovative, cost-effective solutions leverage its proprietary Nexus platform, a real-time transaction processing engine, to develop and deliver customized, cloud-based software applications with military-grade security for facilities that require highly secure solutions.
