

## **Forsyth County Detention Center Selects Lattice's NetVisit Video Visitation Platform**

**The new installation will generate continued NetVisit growth and expand the Company's presence in Georgia**

PENNSAUKEN, NJ, January 21, 2015 (Marketwire) -- Lattice Incorporated (OTCQB: LTTC) ("Lattice" or the "Company"), a cloud-solutions provider of inmate management network systems for corrections facilities, signed a new contract to install its NetVisit video visitation platform at the Forsyth County Detention Center in Cumming, GA. The installation is expected to be completed this month.

NetVisit is a cutting-edge solution that offers a safe, cost-effective alternative to traditional on-site visits. The platform minimizes inmate transport, providing greater security and less administrative burden for prison facility staff. An inmate's friends and family can conduct NetVisit video calls at the facility or remotely.

"We made the strategic acquisition of InnoVisit and their NetVisit video visitation platform to broaden our inmate management and communications solutions portfolio, as well as grow our customer base," stated Paul Burgess, CEO of Lattice. "This new installation validates those objectives. Furthermore, we continue to expand our footprint in Georgia and are excited about the potential growth opportunities in that market."

NetVisit is a solution within Lattice's Integrated Corrections Operating Network ("ICON") platform, an integrated communications system for correctional facilities, offering secure telephone calls, voicemail, video visitation, e-mail, text messaging, and social media. ICON also includes a facility management and accounting package that enables efficient management of all prison processes, including communications, commissary purchases, point-of-sale kiosks, biometrics, booking, incident reporting, and more. ICON's automated payment processing, billing, and accounting features reduce administrative overhead for corrections facilities. ICON is designed to improve efficiency and accountability for correctional facilities ranging from large multi-facility operators to small individual facilities.

Please visit Lattice's exhibitor booth at the upcoming Georgia Sheriffs' Association Winter Conference, taking place January 26-28, 2015 at the Sheraton Gateway Hotel Atlanta Airport.

### About Lattice Incorporated

Lattice Incorporated provides advanced information and communications technology solutions to corrections facilities globally. The Company's innovative, cost-effective solutions leverage its proprietary Nexus platform, a real-time transaction processing engine, to develop and deliver customized, cloud-based

software applications with military-grade security for facilities that require highly secure solutions. For more information, visit <http://www.latticeinc.com>.
