

# LATTICE IMPLEMENTS INMATE VIDEO VISITATION SYSTEM AT ORLEANS PARISH JAIL

## *System Will Provide Significant Costs Savings to the New Orleans Facility*

PENNSAUKEN, NJ, January 12, 2016 (Marketwired) -- Lattice Incorporated (OTCQB: LTTC) has installed its NetVisit™ Video Visitation system at the Orleans Parish Jail in New Orleans, Louisiana. The system will deliver significant labor cost savings to the facility by eliminating the need to transport inmates to visitation rooms. The installation comprises 172 video visitation monitor/camera stations located near the inmates' cell blocks.

"We look forward to delivering significant benefits to Orleans Parish with our NetVisit Video Visitation system," noted Paul Burgess, CEO of Lattice. "We anticipate that the system will generate greater efficiencies to the facility by reducing its labor hours and costs associated with inmate transport. Furthermore, the platform provides greater access for family and friends to connect with inmates, which can help boost inmate morale during incarceration and reduce recidivism upon release."

## **About Lattice Incorporated**

Lattice's Corrections Operating Platform™ (COP) is an integrated network of highly secure solutions, including inmate communication systems, prepaid calling options, voicemail, video visitation and arraignment, and mobile devices. Lattice's inmate management module efficiently manages prison processes, including communications monitoring, commissary purchases, account funding and billing, biometrics, booking, incident reporting, and more.
