

LATTICE LAUNCHES CELLMATE® MOBILE INMATE COMMUNICATIONS DEVICE AT EFFINGHAM COUNTY, GA PRISON

First Implementation a Significant Milestone for Innovative New Solution

PENNSAUKEN, NJ, March 21, 2017 -- Lattice Incorporated has launched the first implementation of its CellMate® Mobile Inmate Communications Device at the Effingham County Prison in Springfield, Georgia.

CellMate Mobile is an innovative device designed to improve inmate morale, productivity, and overall well-being. It incorporates multiple apps to increase the frequency of communications between inmates and their families and friends, as well as educational and social apps such as eBooks, music and games.

CellMate Mobile apps currently available and in development include:

- Secure Phone Calls
- Secure Text Messaging
- eBooks
- Music
- Games
- Access to PREA Hotlines and Tip Lines
- Commissary Ordering
- Links to Facilities' Educational and Legal Resources
- Electronic Messaging
- Grievance Requests

Inmates can purchase the device and keep it upon release.

“CellMate Mobile will provide significant benefits to our inmates,” noted Lieutenant Kenny Allen of Effingham County Prison. “We feel that new features like text messaging will encourage our inmates to communicate more frequently with their families and friends. Additionally, apps such as eBooks, games and music will result in inmates being more productive throughout the day. We anticipate overall improved morale and behavior of our inmates.”

“We are very excited to work with Effingham County Prison on the initial roll-out of our innovative CellMate Mobile device,” noted Paul Burgess, CEO of Lattice. “By providing inmates with ownership of a device offering new ways to communicate with loved ones and stay productive, we are helping improve overall inmate well-being. We look forward to our partnership with the Effingham County facility and to rolling CellMate out at additional correctional facilities in the near and long-term.”
