

LATTICE INSTALLS NEW INMATE VIDEO VISITATION SYSTEM AT PRAIRIE COUNTY, AR JAIL

System To Generate Maximum Cost Savings for the Arkansas Facility

PENNSAUKEN, NJ, March 9, 2016 (Marketwired) -- Lattice Incorporated (OTCQB: LTTTC) has installed its NetVisit™ Video Visitation system at the Prairie County Jail in Des Arc, Arkansas. The system will deliver impactful labor cost savings to the facility, and reduce security risks to its staff, by eliminating the need to transport inmates to visitation rooms. The installation comprises video visitation monitor/camera stations located near the inmates' cell blocks.

“We look forward to delivering significant benefits to Prairie County with our NetVisit System,” noted Paul Burgess, CEO of Lattice. “We anticipate that it will generate greater efficiencies to the facility by reducing its labor hours, costs, and security risks associated with inmate transport. Furthermore, the platform provides greater access for family and friends to connect with inmates, which can help boost inmate morale during incarceration and reduce recidivism upon release.”

About Lattice Incorporated

Lattice's Corrections Operating Platform™ (COP) is an integrated network of highly secure solutions, including inmate communication systems, prepaid calling options, voicemail, video visitation and arraignment, and mobile devices. Lattice's inmate management module efficiently manages prison processes, including communications monitoring, commissary purchases, account funding and billing, biometrics, booking, incident reporting, and more.
